

Our at Creative Curriculum for this month is to create a kite, using different shapes. Use a piece of paper and have your child draw or glue shapes on it. The following shapes could be used: a diamond (rhombus), square, circle, oval, hexagon, octagon, pentagon, rectangle, heart or star. When you are done adding the shapes to your kites, please have your child count all the shapes on the kite and write the number on the back. We want you and your child to work on this together, so they can show their understanding of shapes and practice counting. Have fun!

Strand 3.1 B. Understands Shapes **Strand 1.1** Counts **Strand 10.1** Uses writing tools

Child's name _____

Time spent on project: 15 minutes _____ 30 minutes _____ 1 hour _____

Name of adult who helped _____

Adult signature _____

Date _____

Staff verification _____ Date verified _____
