

**The Five Senses “Sense of Touch”**  
**Ms. Jenny & Miss Britney May 20222 Creative Curriculum**

We have been learning about our senses through exploration. We would like your help to teach your child about the sense of “touch”. Talk to your child about how you use your fingers and hands to feel things. Introduce and explain words like soft, hard, fluffy, rough, hot/cold etc. This will help build your child's vocabulary to describe things. After discussing the new words, please have your child feel various items around the house. As they are touching the items, have them describe how the item feels. Please answer the following questions:

How does a pillow feel? \_\_\_\_\_

How does the kitchen table feel? \_\_\_\_\_

How does a Marshmallow feel? \_\_\_\_\_

How does a hairbrush or comb feel? \_\_\_\_\_

What other things did you feel around the house? \_\_\_\_\_

What texture is your favorite to touch and why?

\_\_\_\_\_  
\_\_\_\_\_

Child's name \_\_\_\_\_

Name of adult who helped (print) \_\_\_\_\_

Adult signature \_\_\_\_\_

Date: \_\_\_\_\_

Time Spent on Exploring: (circle one) 30 min. 45 min. 1hr.

ELS Strands:

1. Scientific Inquiry 1. Observation and Reporting

**2. Investigation**
