

Tucker Turtle

At Home Family Activity

Tucker Turtle is one of the characters we use in the classroom to help with problem solving techniques.

The children are learning how to stop, think, and breath using tucker turtle. For our at home activity this month we are sending a copy of the book and a printable turtle for you and your child to create. This is a great time to help your child understand emotion words, ways to problem solve, name colors as they decorate their turtle, and build language skills as you discuss the story. Please return the bottom of the sheet signed and your turtle so we can display in the classroom.
