My Shape Scarecrow - At Home Project

Please use the construction paper attached to cut out shapes and create a scarecrow! You may make and decorate it however you would like. Use shapes such as square, triangle, circle, rectangle, or any others you can think of! We would love to create a wall of cute scarecrows to display, so please assist your child with this project and return this page. Don't forget to send your scarecrow with it!

I used these shapes: _____

This is how I did with cutting: _____

ELS Strand(s):

Geometry and Measurement:

3.1 Identify and use shapes

3.2 Measurement

Object Control and Manipulation:

12.4 Manipulation
