Teacher updates- Teachers have had a great time bringing our pumpkin patch field trip to the building. We learned how the pumpkins grow on vines and that the curly parts of the vine are called tendrils. The tendrils job is to keep the vine anchored to the ground, so the vines don't blow away. Each child got to go into the pumpkin patch and pick a pumpkin from the vine. The kids have really been enjoying doing chip clip fingerplays. Next month we will be talking about family, being thankful and kindness.

Next meeting November 21st @5pm
