

November At Home Learning Project

This month's family activity will focus on your family and people, or pets important to your child. Please create a family collage photo that your child can share in our classroom. You can use real photos or have your child draw their family members. As you add the photos, or you child draws the member, ask them what it is they like about that person/pet, and add next to the photo. Your child can write the person's name with your assistance by copying or tracing over what you write. Remember to have your child write their name also. This activity is a great way to practice writing skills and language. Help your child build their vocabulary by using descriptive words when talking about their family. We have also been talking about the word, compliment. Have them tell you what compliment means and explain they can complement a family member. If they need help please remind them that giving a complement means saying something nice about someone. If you need help printing pictures, feel free to email them to us and we will print for you.

P. S. don't forget to let your child add whoever helps them with the project.
