

Miss Jenny and Miss Alexis

March Learn At-Home Activity

Our Learn At-Home for this month is to create a kite, using different shapes. Use a piece of paper and have your child draw or glue shapes on it. The following shapes could be used: a diamond (rhombus), square, circle, oval, hexagon, octagon, pentagon, rectangle, heart, or star. When you are done adding the shapes to your kites, please have your child count all the shapes on the kite and write the number on the back. We want you and your child to work on this together, so your child can demonstrate an understanding of shapes and practice counting. Have fun!

Child's name _____

Time spent on project: 15 minutes _____ 30 minutes _____ 1 hour _____

Name of adult who helped _____

Adult signature _____

Date _____

Staff verification _____ Date verified _____
