February News

This Month

This month we are finishing up our study about water. We are learning where water comes from and what we use it for. We have been playing in water by practicing washing babies, washing dishes, fishing, ice painting, and science experiments with water.

This month we will do heart activities for the week of Valentine's Day. We also get to finally do a study on magnets. Magnets have been a big hit in our classroom lately so we would like to learn more about them!

We finished moving all our superhero capes over to the kindness chart, so we got to have our hot chocolate party! We will start working on another friendship activity for a popcorn party this month!

Just a few reminders, please bring in extra clothes if your child does not already have some. Parents are always welcome to come in and read, have lunch, or help us with activities in the classroom! We all love visitors!

Pyramid Model News

As we are still working on friendship building and being kind, we are going to be introducing stop and go actions. When another child thinks the action is not kind or unsafe, they can hold up the stop sign. When someone is being kind or making a good choice, we can hold up the go sign.
