Learn At-Home Activity

This activity is for your child to learn to recognize numbers and practice counting. Have your child cut out each heart. Then, have your child cut the middle of the heart to separate the number from the mini hearts. Ask your child to name the numbers that are on each card. Next, match up the number portion of the heart to the corresponding piece with the appropriate quantity of mini hearts. You can also ask your child to count as far as he or she can out loud. Have fun and don't feel stressed if he or she doesn't know all of them. The more you play, the more your child will learn!

* Which of the numbers was your child able to name?

* Which of the numbers was your child able to connect with its quantity?

* How far was your child able to count? _____

Child's name _____

Name of adult who helped (print) _____

Adult signature _____

Date _____

Time spent (circle one) 30 min. 1 hr. 1.5 hrs. 2 hrs.

Verified by staff _____ Date verified _____

ELS Strands

1.1 Functional Counting

1.3 Written Numbers

12.4 Manipulation
