

### This Month

**We are ready to blast into April! We are going to take a couple weeks to learn about space! Ever since we took a class spaceship ride, everyone keeps talking about how much fun it was! We have some great activities planned to help us learn about the huge galaxy in which we live.**

**We will then have a fun camping theme where we will put a tent in our classroom and pretend, we are in the wilderness camping. We will get to have a smores treat, sit around a “campfire” and so much more.**

**Parents, please check your learning genie app under the In-Kind tab as we have weekly activities for you and your child(ren) to do and we can earn Head Start money for all our supplies and activities!**

### Important Date

**3/25 - 4/1 No School/ Spring Break**

### Pyramid Model News

We have been working on problem solving in our classroom. Each teacher has solution cards and when we see a problem arise such as wanting the same toy, wanting a turn at an activity, or other problems we can help them work out a solution. Some of the most popular are setting a timer and playing rock paper scissors. We have purposely put only two new items out to see how they go about problem solving. We are almost to the point where majority of our class can problem solve with little help!
