

### This Month

Spring is coming which means the weather is changing! We will learn about what happens to nature when the weather changes by investigating the weather. We will learn about how April showers bring May flowers. This month, we are also celebrating Earth Day by learning about how to reduce, reuse and recycle. We will create some art using recyclable materials, investigate ways we can help reduce waste, and learn about recycling. We will also explore nature a little more by planting a small herb garden in the classroom. We will learn what plants need to survive.

### Pyramid Model News

We are continuing to work on problem solving skills. We are focusing on sharing, taking turns, and asking friends and teachers nicely for things.
